ROYAL GOVERNMENT OF BHUTAN
Ministry of Agriculture and Forests
Thimphu : Bhutan

PPD/PMS/1/3/

22nd April, 2019

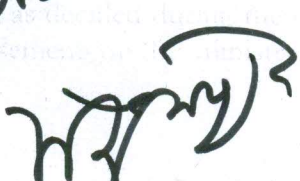

Note Sheet

This is to kindly apprise Your Excellency that following the directives of the ministry, a team comprising of senior officials from the relevant department and agencies of the ministry has developed a Cost Sharing Mechanism for the Renewable Natural Resource Sector. The cost sharing has been in practice since the start of Five Year Plan in the form of subsidy by the government. However, cost sharing was implemented without any clear guidelines and, thus, lacked uniformity and fairness. Therefore, this document is expected to bring uniformity in the provision of subsidies across different agencies within the ministry as well as across various donor funded projects and programs. The draft document was presented to the RNR GNH Committee Meeting during the 101st Session on 17th April, 2019 held in MoAF Conference Hall. The meeting, among others, directed that the document will be used within the ministry as a guiding document in implementing various subsidy programs in the 12th Five Year Plan. The document has also been revised based on the comments and recommendations of the RNR GNH Committee.

Therefore, as decided during the Committee Meeting, Cost Sharing Mechanism is hereby submitted for the endorsement of the ministry for further circulation within the ministry for implementation and adherence.

Submitted for kind approval.

 Kencho Thinley
 Chief Planning Officer
